Commission on Dietetic Registration
the credentialing agency for the American Dietetic Association

EXAMINATION SECURITY

Examination reliability and validity are augmented by strict adherence to standard procedures related to test administration and test security. These procedures control extraneous factors, such as cheating on the examination, which result in unreliable and invalid representations of examinee performance. CDR has been informed that some examination course providers are requesting that their students record test items in order to compile sample examinations to assist students in preparing for the examination. This practice is unethical and detrimental to the security, integrity and validity of the examination.
